what she said is encouraging about interest in scenic river designation. Email is best for responding but if she wants, we could also meet with her next week.

story

Hi Lynda, Thanks for your patience last week. I am still buried in preparing for next week's meeting in Silverton and catching up with many issues from being away two weeks. I hope to be able to talk with you again soon; however, if you have particular questions, could you email them to me? I may be able to respond better after normal working hours and I want to keep my community involvement coordinator, the ARSG, and the BLM in the loop too.

Sincerely,

Sabrina Forrest

Subject: Durango Herald

story

Hi Sabrina

I'm the government reporter for The Durango Herald. I'm working on a four part series about the Animas River.

I've interviewed business owners and citizens groups about the possibility of a Superfund site. In Silverton, citizens are particularly keen on getting Cement Creek and Mineral Creek cleaned up because there is a chance at getting a scenic wild river designation.

Could you please give me a call so I can ask you a few questions about where things stand vis a vis the possibility of getting a Superfund site declared near Silverton?

If you are on the road and will be in the La Plata County area, I would be glad to come and meet you wherever is convenient for you.

My direct phone number is 970-375-4537.

Thanks very much,
Lynda Edwards
